

## Who WE Are

## SAF STL AMANDI FOUNDATION

We are a non-profit organization that is supported financially by the STL Group and by our employees that volunteer and dedicate their time and services for this cause.

We have undertaken many projects in the education, health and welfare sectors.

One of the goals that the Group has set out to achieve is to contribute to the different communities in Ghana. The Group carries out many projects each year to support local communities. One of the on-going projects involves providing extra-curricular activities and English-tutoring at local schools. We believe that education is the key to a better and brighter future for every child in Ghana.
