

SAF BRINGS SOME WELL-DESERVED EXCITEMENT TO STUDENTS IN NEW AMANFUL DURING THEIR SCHOOL VACATION

From April 20th to May 10th,

the **Ebenezer Methodist Preparatory School** in New Amanful broke for vacation. Although, the students were happy to have finished their examinations, they were also bored due to a lack of extra-curricular activities or even worse, were obligated to help their families by carrying a wide array of goods on their heads in order to supplement the families' income.

SAF was determined to bring some well-deserved excitement to the students during their vacation. The students were brought to another school in the area wherein they played a variety of games and played both football and volleyball. The children were having so much fun that it didn't take long for more than 50 children from the village ranging in age from 3- 17 years joining daily.

In addition to sports, SAF volunteers organized a variety of activities for them including painting, reading, math classes, storytelling and even a visit from a professional dog trainer with her Boerboel Simba. SAF volunteers also used this time to discuss important issues with them including, respecting others and non-violence.

This was a great initiative that we look forward to continuing with in the future.
